

Mr. Tracy Daubenspeck is a Technical Project Manager for the Obsolescence Management Division at Naval Undersea Warfare Center located at Keyport, Washington.

In that capacity, he manages the execution of Obsolescence Management projects in the division.

Mr. Daubenspeck is a co-chair of the DOD DMSMS Working Group's Problem and Solution Committee and an active participant in both the Navy's and NAVSEA's DMSMS Working Groups where he works to develop DMSMS management best practices.

Mr. Daubenspeck was a major contributor to the revised SD-22 DOD DMSMS Guidebook that was published in 2012 and revised in 2015, and 2016.

He worked with the DOD DMSMS community and the Department of Commerce to develop a DMSMS cost metrics survey that was conducted in 2014.

The results of that survey were published in early 2015.

Mr. Daubenspeck has a Bachelor of Science in Industrial Technology, is a certified Business Process Reengineering Practitioner, and is a certified Project Manager.
