

DR. ROLLIE DUTTON is the Chief of the Manufacturing and Industrial Technologies Division of the Materials and Manufacturing Directorate.

ManTech's core mission is to develop and apply advanced manufacturing processes and technologies to reduce the cost and cycle time of current and next generation military systems.

Dr. Dutton began working at the Materials & Manufacturing Directorate in 1992 modeling the processing of metals, ceramics and metal matrix composites.

Dr. Dutton has held several supervisory and technical positions in the Materials and Manufacturing Directorate including six years as the Chief of the Metals Branch in the Metals, Ceramics and Nondestructive Evaluation Division.

He has authored or co-authored more than 40 papers on a variety of technical subjects and is the co-holder of two US patents.

Dr. Dutton obtained his B.S. in Geological Engineering from the University of Missouri-Rolla in 1976.

After working ten years for the Amoco Production Company as a Petroleum Engineer in a variety of technical and supervisory assignments he returned to the University of Missouri-Rolla and obtained a Ph.D. in Ceramic Engineering in 1992.

Dr. Dutton is a registered Professional Engineer in the state of Oklahoma.
