

Eric Grothues currently serves as the Director, Independent Logistics Assessment (ILA) and Sustaining Engineering policy for the Deputy Assistant Secretary of the Navy (Expeditionary Programs and Logistics Management).

In that capacity, he has responsibility for policy and oversight of the Department of Navy (DON) ILA process.

He is also the DON Action Officer for Diminishing Manufacturing Sources and Materiel Shortages; Counterfeit Material; Product Deficiency Reporting and Evaluation Program, and sustaining engineering.

Eric has supported the Office of the Assistant Secretary of the Navy (Research Development and Acquisition) since 1990.

Eric received his Bachelor of Science in Mechanical Engineering from the California State University, at Long Beach in 1990.

He has received several awards including the Navy's "Salty Dog Award" for RM&Q, the Vice Presidential "Golden Hammer Award," "Defense Acquisition Innovation Award," and is recognized by ASN(RD&A) as a subject matter expert in technical risk management.
