

Mark Baldyga is a Global Commodity Manager for Integrated Circuits at Converge and specializes in developing Sourcing, Test and Inspection programs and processes for Aerospace, Defense and Medical customers.

Mark has been with Converge for over 20 years and has been instrumental in developing Converge's best in class Counterfeit Mitigation and Detection Strategies.

Mark is also a member of the Parts Management Working Group.

Mark began his career at Warren Pumps in 1982 tracking down counterfeit pump parts for Warrens Naval Pump Division.
