

Mr. Tracy Daubenspeck is the Operations Lead for the Obsolescence Management Division at Naval Undersea Warfare Center located at Keyport, Washington.

In that capacity, he develops and maintains training and processes for the division.

Mr. Daubenspeck was a major contributor to the revised SD-22 DOD DMSMS Guidebook that was published in 2012 and revised in 2015, and 2016.

He worked with the DOD DMSMS community and the Department of Commerce to develop a DMSMS cost metrics survey that was conducted in 2014.

The results of that survey were published in early 2015.

Mr. Daubenspeck is an active participant in the DoD DMSMS Working Group where he works to develop DMSMS management best practices, guidance, and policy.

He is currently leading strategic objectives for the Working Group in the areas of Contracting, Metrics, and Readiness.

Mr. Daubenspeck has a Bachelor of Science in Industrial Technology, is a certified Business Process Reengineering Practitioner, and is a certified Project Manager.
